PROFESSIONAL EXPERIENCE

QuonderBox IT Solutions
Software Developer

2022-2024

Key Accomplishments

- Designed and implemented front-ends using React, CSS, Redux, and Typescript.
- Developed mobile applications using React Native, GraphQL and Expo.
- Developed a chrome extension using Typescript, that uses Node as backend and MongoDB as database.

Kumit IT Solutions
React Developer

2022-2024

Key Accomplishments

- Implemented front-end designs created in Adobe XD into web pages using NextJS, React, and Typescript.
- Integrated the front-end with available API Endpoints created in backend, that uses Python and PostgreSQL, using Axios.

Nokia Technology Center Philippines, Inc., Quezon City, Philippines
Software Developer

2014-2019

Leads a five-man team in the overall feature development from planning to delivery. Designs, develops and implements software architectures.

Key Accomplishments

- Successfully led the team for 2 major project components involving the integration of 3rd party applications to the project platform. This entailed the design and development of microservices using python and JavaScript frameworks.
- Effectively built an infrastructure in OpenStack cloud by creating a script using Terraform.
- Upgraded and maintained the development platform (OpenStack) and infrastructure (Mesos/Marathon) to match with the production environment. As the lead and subject matter expert mentors the rest of the team in troubleshooting and resolving issues encountered.
- Attained 100% ways of work qualification of the team's releases, upgrades and hotfixes of software to the development, staging and production by setting up the team's software development cycle and by undertaking a thorough review of outputs.
- Led the team in successfully including an application's deployment to the project repository. The

process involved enabling the team in the use of the ansible script and in modifying the project-specific ansible script.

- Selected to participate in the architecture planning workshop held in Finland and saw to the implementation of the quarterly plan and compliance to agreements from the workshop.

EDUCATION

Bachelor of Science in Computer Science

Polytechnic University of the Philippines, Manila, Philippines
